Experience

UX / UI Design
Oneiota Golf Performance

April 2023–April 2023

Worked with Oneiota Golf Performance as part of the Euonoia one-week UX Hackathon. Designed a mobile app prototype which was selected as the foundation for the development of their app. Chosen as the best team within the client group:
- employed affinity clustering, stakeholder mapping, bulls-eye mapping, and other brainstorming techniques to uncover potential design solutions

Part-Time to Full Time Vehicle Readiness Specialist
Tesla

September 2021 - Present

Performed client-facing, back-of-the-house, and logistics duties for Surrey's record-breaking delivery center:
- managed logistics for vehicle arrivals
- provided vehicle orientations & rectified customer + vehicle concerns
- prepared record-breaking vehicles for delivery
- performed quality control checks on vehicles
- installed vehicle accessories

UX / UI Design
Milklady Soap Co.

May 2022 - August 2022

Worked with Milklady Soap Co. for a University design course (Interaction Design Methods) to uncover pain points within the company's operations and ultimately created a re-designed website prototype:
- ideated various physical and digital design solutions
- conducted ethnographic studies and created personas, user journey maps, concepts, and storyboards
- ran a participatory workshop with our client

UX / UI Design
The Dip Dr.

May 2022 - August 2022

Worked with an automotive restyling company as part of a University design course (Design Evaluation) to uncover usability concerns with their website and proposed design changes:
- created questionnaires and conducted heuristics evaluations & think-aloud user testing
- created mockups for various mobile pages of their website

Education

Simon Fraser University
Interactive Arts & Technology

May 2018 –April 2023
